INSTALLATION

1. Position the two (14) mounting plates on the two post lift mounting arm (see figures 2 and 3).
2. Using four (16) cap screws and four (13) lock washers, fasten the mounting plates to the four holes located on the top of the mounting arm.
3. Place the air manifold assembly on the mounting plates and secure using two (11) "U" bolts, four (13) lock washers and four

(12) nuts (see figures 1 and 2).

NOTE: The regulator is rotated upward 90° for easier viewing of (5) gauge.

4. Connect the (9) hose and (10) swivel to the pump air motor inlet.
5. Connect 1/2" i.d. air line hose to (3) filter.
