

**How to tell the difference between an Insight Graphics (Old) and an Insight IC (New) visually:**

Looking directly at the graphical screen:

**Insight Graphics**

- Power enters the box on the lower left
- Tool is connected on the left
- No embossed logo
- Circular connector for I/O

**Insight IC**

- Power enters the box on the upper right
- Tool is connected on the left
- Embossed I-R logo above screen
- Hinged door on left side for I/O
